Medley of ancient gods
and pyramid dwellers.
Ancient Egyptian Battlers

From Ra to Set to Mummies to Canopic Jars, this set has you covered with an Ancient Egyptian theme.. There isn't a great deal to say on this. The battlers are nicely drawn and are congruant in style with one another. The only downsides are that each battler has only one pose, and for me personally a few have been rendered uselyess by being cut off at the waist, but for some this may not be an issue.

If you're making a game with an ancient Egyption theme and need some enemies, I can imagine you'll find this very useful.
